Vegreville Town Hall Meeting – February 14, 2017

Come show your love for Vegreville!

(Vegreville) – On February 14, 2017 the Town of Vegreville will host a Town Hall meeting at the Social Centre at 7:00 p.m to update the community on actions taken regarding the Federal Government’s closure of the Case Processing Centre (CPC).

“We have been hard at work talking to all levels of government since we last spoke at the Community Forum on December 18,” said Mayor Myron Hayduk. The Town of Vegreville has been working with stakeholders to gather information and create a strong argument why this decision must be reversed” added the Mayor.

The Town has set up the website www.stopcpcclosure.com so that residents and stakeholders have access to information and are well informed to have discussions with elected officials and others regarding the impact of this decision on our Town.

“We are encouraging residents in Vegreville and from rural communities across the province and country to use social media, write letters or call Minister Hussen and voice their concern about how rural Canada is being treated,” said Mayor Hayduk.

Members of the community and region are encouraged to attend the Town Hall meeting to hear from the Mayor Hayduk, Jessica Littlewood, MLA and the PSAC union who will provide an update on their meeting with Minister Hussen which is scheduled for February 13, 2017.
